

## Services

### **Consultation - 30 mins \$60**

All first sessions include a consultation, but this can be booked separately if you are unsure if cosmetic tattooing is right for you. If you've had previous work done elsewhere it's recommended to come for a consult first, although we can discuss over the phone/email, and you'll be required to send photos. During a consultation we will discuss medical history, skin type, lifestyle and your preferences to decide which options are suited to you, we will also do a pre draw and discuss colour choice. If you make a booking on the day you won't be required to pay the consult fee.

All tattoo appointments will require a \$100 deposit to secure the booking. This is done securely via Paypal if booking online or via bank transfer. The deposit will be deducted usually at the second appointment, depending on what you're having done.

## Brows

### **Powder Brows - first session 2 hours \$480**

Powder Brows are done using a machine and are suitable for all skin types. This is my most popular option as we can vary the intensity to whatever you're after e.g very soft and subtle, medium or bold for a more "makeup" look.

### **Ombre Brows - first session 2 hours \$480**

Ombre brows are also done with a machine and are a shading technique where the front of the brow is softer and tails more defined. Also suitable for all skins

### **Combination Brows - first session 2 hours \$490**

Combo Brows are both hair strokes (generally at the start of the brow) blended into shading for a defined yet natural look. Hair strokes aren't always suitable for all skin types.

### **Second brow session - 1.5 hours \$250**

This session is necessary for all new brow bookings to perfect your brows, we may need to adjust the colour, depth or shape. It is advised that you book this when booking the first session if possible. Each session should be booked 6-8 weeks apart. Your deposit is deducted here making it **\$150**.

## Eyeliner

### **Stardust or smokey liner - first session 2 hours \$450**

This is a shaded liner technique with a shadow effect or just a soft edge, can be customised for a soft subtle look or bolder look.

### **Upper or lower lash enhancement - first session 1.5 hours \$300**

A lash enhancement is a thin line through the lash line. This subtly defines the eyes and creates the appearance of thicker lashes.

### **Upper & lower lash enhancement - first session 2.5 hours \$400**

### **Classic upper liner medium thickness - first session 2 hours \$350**

Classic liner is more visible than the lash enhancement and has a defined edge like liquid liner

### **Classic Upper liner Thick - first session 2 hours 15 mins \$400**

### **Visible liner Upper & Lower - first session 2.5 hours \$550**

### **Eyeliner second session - up to 2 hours \$200**

Your \$100 deposit is deducted here making it \$100. All new eyeliner bookings require a second session at 6-8 weeks.

## Lips

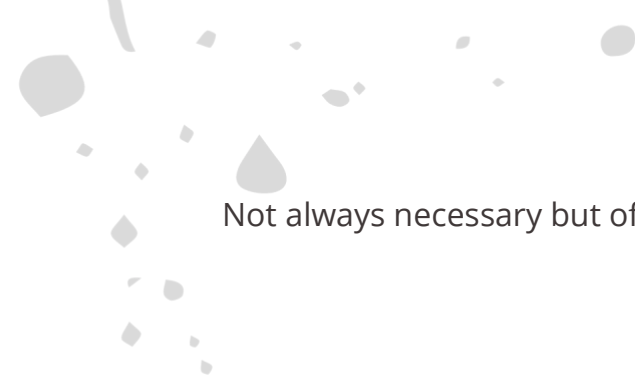

### **Lip tint tattoo – first session 2 hours \$590**

A lip tint is a sheer tattoo over the entire lip giving a natural tint effect. This can be done up to a few shades brighter than your natural lip colour but keeping to the same tone. Your \$100 deposit will likely be deducted from this appointment as a touch up isn't always required, this will depend on the condition of your lips prior and how well they heal.

### **Lipstick effect tattoo – first session 2.5 hours \$650**

A lipstick effect tattoo is a more solid colour, any colour can be chosen for this treatment as long as it's complimentary to your skin tone. You're welcome to bring your favourite lipsticks to colour match.

### **Lip Tattoo - second session approx 1.5 hours \$150**

Not always necessary but often required for a lipstick effect. Price and timing can vary.

### **Tattoo Refreshers**

These services are for those who have had their brows, lips or liner previously tattooed by me. The longevity of your tattoo will vary depending on your skin type, lifestyle, colour and technique chosen. For a refresh the colour should have faded by approx 50% as we want to keep the skin in good condition and not oversaturate the skin with pigment. If you're uncertain please contact me. Everyone's skin is different, if you're highly active, have oily skin or spend a lot of time outdoors, you may need them refreshed sooner than others.

**Brow tattoo refresh 12-36 months 1.5 hours \$350**

**Lip tattoo refresh 12-36 months 2 hours \$350**

**Eyeliner refresh – timing and price will vary. Eyeliner typically lasts a lot longer before needing a refresh.**

**Minor touch up after refresh – timing and price will vary, usually between \$50-100**

### **Extras**

I also offer the following;

Brow shaping

Lash & Brow tinting

Facial waxing

Gel Polish Manicures

Feel free to ask if there's time to add any of these on at your tattoo appointment
